

## What happens if I no longer want to use the service?

### SUMMARY

You can at any stage download your files from the system - you can download anything from a single file to an entire cabinet at a time. Some users like to do this on a regular basis to keep their own backup of their files.

Downloads are delivered as a secure link to your email address, so you can ensure that the download is encrypted and secure.

### MORE INFORMATION

The downloaded file is a zipped (compressed) file, containing the same folder tree layout as the cabinet or folders you are downloading.
